NOTICE: IBM leverages the services of Credly, a 3rd party data processor authorized by IBM and located in the United States, to assist in the administration of the IBM Digital Badge program. In order to issue you an IBM Digital Badge, your personal information (name, email address, and badge earned) will be shared with Credly. You will receive an email notification from Credly with instructions for claiming the badge. Your personal information is used to issue your badge and for program reporting and operational purposes. It will be handled in a manner consistent with IBM privacy practices. The IBM Privacy Statement can be viewed here: <https://www.ibm.com/privacy/us/en/>. IBM employees can view the IBM Internal Privacy Statement here: <https://w3.ibm.com/w3publisher/w3-privacy-notice>.

Credly Support: For questions related to your Credly badge earner account and profile, as well as issues related to claiming your badge after receiving a notification, go to support.credly.com.

Software Developer

This Badge Earner has built up entry-level technical and professional skills in the role of Software Development. Learners had exposure to basic and key fundamentals of professionalism, time management, communication, and collaboration in this role. This includes, but is not limited to, learning about the type of projects that Software Developers tackle, the tools and skills they rely on to bring projects to fruition, and experiencing a day in the life of a Software Developer. Learners also demonstrated their learnings by coding their own virtual video game!
